PARTE 6 · WAS THERE A REAL FLOOD? · ~1:27 · 17 cortes

Audio: `06.mp3` · **NUEVO:** `PARTE-06-PREMONTAJE.mp4`**.** El video ya viene armado; solo pegas encima los 6 clips de IA y el de Jonas.

⚡ CÓMO ARMARLA RÁPIDO (15-20 min en CapCut)

1. Arrastra `PARTE-06-PREMONTAJE.mp4` a la línea de tiempo y `06.mp3` debajo.
2. Donde veas una **tarjeta con borde ámbar** ("CORTE X · PEGA AQUÍ TU CLIP DE FLOW"), pon encima tu clip de Flow del mismo número.
3. Pon los PNG en una capa arriba, según la tabla.
4. Ajusta los cortes al audio, empujando bordes. Listo.

Solo 6 imágenes IA en esta parte. Lo demás ya está hecho: motion graphics y material real.

🖼️ LAS 6 IMÁGENES + ANIMACIÓN (copiar y pegar)

IMG-46 · Inundación regional

```
Photorealistic aerial shot of a vast ancient Mesopotamian river plain completely flooded by brown water, only palm tree tops and mud-brick rooftops above the surface, a ziggurat in the distance half submerged, overcast sky, epic scale, cinematic documentary reenactment, 16:9, no people, no text.
```

```
Animate the image: brown floodwater flows slowly across the plain, palm tops sway, clouds drift. Slow aerial push-in. No new objects.
```

IMG-47 · Woolley en Ur, 1929

```
Photorealistic 1929 archaeological excavation in the southern Iraqi desert, a deep stepped pit with layered earth walls, dozens of local workers carrying baskets of soil, a British archaeologist in a pith helmet and khaki shirt supervising at the edge, dust in the air, harsh sunlight, sepia-toned vintage film look, 16:9, no text.
```

```
Animate the image: workers carry baskets up the steps of the pit, dust drifts in the sunlight, the archaeologist points down into the pit. Slow push-in. Keep faces consistent.
```

IMG-48 · "Encontré el diluvio"

```
Photorealistic close shot of a 1920s British archaeologist in a pith helmet standing deep inside an excavation pit, pointing with a trowel at a thick clean grey layer of silt in the earth wall between darker layers full of pottery shards, dramatic side light, sepia vintage film look, 16:9, no text.
```

```
Animate the image: the archaeologist slowly runs the trowel along the grey silt layer and looks up with conviction, dust falls from the wall. Static camera, slow push-in. Keep his face consistent.
```

IMG-49 · El Éufrates se desborda

```
Photorealistic wide shot of the ancient Euphrates river bursting its banks, brown water spreading over palm groves and reed huts of a Mesopotamian village, heavy grey sky, rain, cinematic documentary reenactment, 16:9, no people visible, no text.
```

```
Animate the image: the river water rises and spills over the banks into the palm groves, rain falls, reeds bend in the current. Static camera, slow push-in. No people.
```

IMG-50 · El mar entra al lago

```
Photorealistic epic wide shot of the Mediterranean sea breaking through a narrow rocky land bridge and pouring as a massive waterfall into a lower freshwater lake, a small Neolithic village of huts on the lake shore far below, mist and spray, dramatic stormy light, prehistoric landscape, cinematic, 16:9, no text.
```

```
Animate the image: the huge torrent pours through the gap and crashes into the lake, mist rises, the lake level slowly climbs toward the huts. Slow aerial push-in. No people visible.
```

IMG-51 · Sonar de noche

```
Photorealistic close-up of a 1999 research ship control room at night, a glowing green and amber sonar screen showing a scrolling underwater terrain profile with a clear ancient shoreline step, scientists' hands on the console, dim red cabin light, cinematic, 16:9, no readable text.
```

```
Animate the image: the sonar image scrolls slowly from right to left revealing the underwater shoreline step, the screen glow flickers, a hand adjusts a dial. Static camera. No new objects.
```

🎥 JONAS · P05 (cuadro inicial: Jonas frente al Ararat)

```
Animate the image. The man looks into the lens, calm and direct, and says in English with a deep, low, slow voice: "If you like knowing what they didn't tell you, subscribe. Every week I uncover a new story." Slight nod at the end. Wind gently moving his hair and shirt. Static medium shot, very slow push-in. Ambient wind, no music.
```

```
Animate the image. The man leans slightly toward the camera and lowers his voice, and says in English with a deep, low, slow voice: "Because now comes the question everyone asks: a wooden boat that size… could it really float?" He holds eye contact for one second after the line. Wind in his hair. Static medium shot, very slow push-in. Ambient wind, no music.
```

✨ MOTION GRAPHICS · 📷 REAL · 🔤 PNG

Archivo	Qué es
`MG-39`	A GLOBAL FLOOD · no evidence → ENORMOUS REGIONAL FLOODS
`MG-40`	**Corte de las capas de Ur:** ciudad / lodo limpio de hasta 3,5 m / ciudad otra vez · "I FOUND THE FLOOD."
`MG-41`	**Mapa de Mesopotamia** con el Éufrates, el Tigris y el golfo; aparecen KISH, SHURUPPAK y UR
`MG-42`	**Perfil animado:** el Mediterráneo rompe el Bósforo y el Mar Negro sube
`MG-43`	1999 · ROBERT BALLARD · sonar · conchas · THE DATES MATCH · STILL DEBATED
`MG-44`	"07 · COULD IT FLOAT?"
`R27`	Mar Negro al atardecer (video real, Pixabay)
`R28`	Barco en el mar (Pixabay)
`R29`	Conchas en una playa del Mar Negro (Pixabay)

Precisión: la cita *"I found the Flood"* resume la convicción de Woolley, no es una frase textual documentada. Si prefieres no arriesgar, no uses `TXT-i-found-the-flood` y deja que lo diga la narración.
