PARTE 7 · COULD IT FLOAT? · ~1:38 · 19 cortes

Audio: `07.mp3` · **Pre-montaje:** `PARTE-07-PREMONTAJE.mp4`

⚡ CÓMO ARMARLA (15-20 min en CapCut)

1. Pon `PARTE-07-PREMONTAJE.mp4` en la línea de tiempo y `07.mp3` debajo.
2. En cada **tarjeta con borde ámbar** pega tu clip de Flow del mismo número: son 6 imágenes IA y Jonas P06.
3. Pon los PNG encima, según la tabla. Ajusta al audio.

🖼️ LAS 6 IMÁGENES + ANIMACIÓN (copiar y pegar)

IMG-57 · El arca en construcción (escala)

```
Photorealistic epic wide shot of a colossal rectangular wooden ark under construction in a dry ancient landscape, about 450 feet long and four stories high, its dark timber hull half covered with scaffolding, tiny workers on ladders and beams showing the immense scale, piles of logs and pots of black pitch on the ground, golden late-afternoon light, cinematic documentary reenactment, 16:9, no text.
```

```
Animate the image: workers move along the scaffolding and carry beams, smoke drifts from pitch cauldrons, dust in the light. Slow aerial pull-back revealing the full length of the hull. No morphing of the hull.
```

IMG-58 · Los estudiantes de Leicester

```
Photorealistic shot of four university physics students in a modern lecture room gathered around a whiteboard covered with buoyancy equations, Archimedes' principle and a sketch of a long rectangular box hull, one student pointing at the calculation, laptops and coffee cups on the table, natural daylight, documentary style, 16:9, no readable text.
```

```
Animate the image: the student taps the whiteboard and the others lean in and nod, one types on a laptop. Static camera, slow push-in. Keep faces consistent.
```

IMG-59 · Botadura del Wyoming, 1909

```
Photorealistic black-and-white archival-style photograph of a colossal six-masted wooden schooner sliding down the launch ways into the river at a shipyard in Bath, Maine, 1909, crowds in early-1900s clothing and hats cheering on the shore, flags, splash at the bow, grain and scratches, historical photo look, 16:9, no text.
```

```
Animate the image: the giant schooner slides slowly down the ways into the water creating a large splash, the crowd waves hats, flags flutter. Old film flicker and grain. Static camera.
```

IMG-60 · El casco se dobla

```
Photorealistic dramatic shot of a colossal six-masted wooden schooner in heavy seas, viewed from the side, its long wooden hull visibly bending and twisting between two huge waves, sails strained, spray bursting over the deck, grey stormy daylight, early 1900s, cinematic, 16:9, no text.
```

```
Animate the image: the long hull flexes and twists as it rides over the waves, the bow rises while the middle sags, spray explodes over the deck, sails strain. Camera tracks alongside. Keep the ship's design consistent.
```

IMG-61 · Las bombas sin parar

```
Photorealistic interior shot below deck of an early-1900s wooden cargo schooner, sailors in wool sweaters working hand pumps while seawater sprays through gaps between the planks, water sloshing ankle-deep, swinging oil lantern, dim warm light, exhausted faces, cinematic, 16:9, no text.
```

```
Animate the image: the sailors keep pumping in rhythm, water jets through the planks, the lantern swings as the ship rolls, water sloshes across the floor. Static camera with slight rolling motion. Keep faces consistent.
```

IMG-62 · El hundimiento, 1924

```
Photorealistic dramatic night shot of a huge six-masted wooden schooner foundering in a violent nor'easter storm, the hull low in the water and tilting, masts leaning, waves breaking over the deck, lightning illuminating the scene, no people visible, cinematic, 16:9, no text.
```

```
Animate the image: the schooner slowly sinks lower and tilts further as huge waves wash over it, lightning flashes, rain lashes across the frame. Static wide camera. No people visible.
```

🎥 JONAS · P06 (cuadro inicial: Jonas frente al Ararat)

```
Animate the image. The man looks into the lens, serious, and says in English with a deep, low, slow voice: "So yes: you can build something that size out of wood. It's been done. And you just saw what happened." Steady eye contact, wind gently moving his hair and shirt. Static medium shot, very slow push-in. Ambient wind, no music.
```

```
Animate the image. The man leans slightly toward the camera, lowers his voice, and says in English with a deep, low, slow voice: "Now, the question of the last seventy years. Has anyone found the ark?" He holds eye contact in silence for one second. Wind in his hair. Static medium shot, very slow push-in. Ambient wind, no music.
```

`MG-51`	Hull flexed / planks opened / pumps nonstop → MARCH 1924 · IT SANK
`MG-52`	"08 · HAS ANYONE FOUND IT?"
`R30-R34`	Buque de carga, mástiles de velero, tormenta de noche, olas oscuras, naufragios (reserva). Todo de Pixabay
PNG	genesis-6-15 · 450-ft · football-field · 4-story · 6-to-1 · leicester · 70000-animals · wyoming · steel · march-1924 · ai-recreation

Precisión:

- El campo de fútbol americano mide **360 ft contando las zonas de anotación** (300 ft entre las porterías). El arca (~450 ft) es más larga en los dos casos, así que *"longer than a football field"* es correcto.
- El *Wyoming* era una **goleta de seis mástiles** construida en Bath, Maine. Los mástiles de R31 son de otro velero: úsalos como imagen ilustrativa, no digas que son del *Wyoming*.
